RESEARCH PROFILE	Working on integrated assessment scenarios of climate-change mitigation in the context of the Sustainable Development Goals (SDGs). Dedicated to open-source scientific software. #freethemodels for open science!
HIGHLIGHTS	Research Scholar at the International Institute for Applied Systems Analysis (IIASA) in the “Energy, Climate, & Environment” research program since October 2015; Author & Chapter Scientist of the Special Report on Global Warming of 1.5 °C (SR15) by the <i>Intergovernmental Panel on Climate Change (IPCC)</i> , published in October 2018; Lecturer at TU Wien for the course <i>Open Source Energy System Modelling</i> .
PREVIOUS EXPERIENCE	Positions at the Whiting School of Engineering , The Johns Hopkins University, Baltimore, and the think-tank Resources for the Future , Washington, DC, spring 2015; Research Associate at the German Institute for Economic Research (DIW Berlin) in the department “Energy, Transportation, Environment”, October 2012–September 2015; Energie-Control Austria (Vienna, March–April 2012), the Austrian energy regulator, Department for Competition and Regulation.
ACADEMIC LEADERSHIP	Work package leader in the Horizon 2020 projects <i>openENTRANCE</i> (openentrance.eu) and <i>European Climate & Energy Modelling Forum</i> (ecemf.eu); Topical editor for “Integrated assessment modeling” of the EGU journal <i>Geoscientific Model Development</i> (gmd.copernicus.org); Coordinator for the scenario ensemble compilation underpinning the quantitative assessment in the IPCC SR15, published as the <i>IAMC 1.5 °C Scenario Explorer hosted by IIASA</i> (data.ece.iiasa.ac.at/iamc-1.5c-explorer); Presentation at the UN <i>Climate Change Conference COP24</i> , Katowice, Poland, in December 2018 as part of the PCCB Capacity-Building Hub ; Co-Organizer of the <i>14th Workshop on Mathematical Economics in the Energy Sector</i> by the Austrian Operations Research Society (OeGOR), Vienna, June 2019.
PUBLICATIONS (SELECTED)	J. Rogelj, D. Huppmann, et al. A new scenario logic for the Paris Agreement long-term temperature goal. <i>Nature</i> 573(7774):357-363, 2019 doi: 10.1038/s41586-019-1541-4 D. Huppmann et al. The MESSAGEix Integrated Assessment Model & the ix modeling platform <i>Environmental Modelling & Software</i> , 112:143-156, 2019 doi: 10.1016/j.envsoft.2018.11.012 D. Huppmann et al. A new scenario resource for integrated 1.5 °C research. <i>Nature Climate Change</i> , 8:1027-1030, 2018 doi: 10.1038/s41558-018-0317-4
HONORARY ACTIVITIES	Member of IAESTE , an international traineeship exchange program for students of engineering and natural sciences to gain practical experience abroad; Participant and member of the Austrian organizing committee of the Model European Parliament , a forum for young students interested in politics and the European Union.

Curriculum Vitae – Dr. Daniel Huppmann

CURRENT	<p>Research Scholar at the International Institute for Applied Systems Analysis (IIASA) in the “Energy, Climate, & Environment” research program since October 2015;</p> <p>Scientific Lead of the <i>Modeling Platform Development Team</i> since February 2019.</p>
PREVIOUS POSITIONS	<p>Research Associate at the German Institute for Economic Research (DIW Berlin) in the department “Energy, Transportation, Environment”, October 2012–September 2015;</p> <p>Postdoctoral Fellow at the Whiting School of Engineering, The Johns Hopkins University, Baltimore, January–June 2015;</p> <p>Visiting Fellow at Resources for the Future, Washington, DC, in spring 2015.</p>
EDUCATION	<p>Doctoral dissertation defended in June 2014 at Berlin University of Technology for the academic degree <i>Dr.rer.oec.</i> (equiv. PhD in Economics, grade: <i>Summa cum laude</i>), written within the DIW Berlin Graduate Center of Economic and Social Research;</p> <p>Graduated as <i>Diplom-Ingenieur</i> (Dipl.-Ing., equiv. MSc, 5-year degree) in Mathematics from Vienna University of Technology in November 2010;</p> <p>Austrian high school final exam (<i>Matura</i>) passed with distinction at the Theresianische Akademie Wien in June 2003.</p>
PROFESSIONAL EXPERIENCE	<p>Energie-Control Austria (Vienna, March–April 2012), the Austrian energy regulator, Department for Competition and Regulation; tasked with implementing a short-term electricity spot price forecast model;</p> <p>ACTED (Tajikistan, July–August 2006), a development cooperation agency; in charge of two projects on microfinance and market surveying;</p> <p>Deloitte (Paris, July–October 2005), an international financial services and audit firm; working in the EMEA Learning and Development department in Paris; responsible for preparation and logistics of training seminars;</p> <p>Government Accountability Project (Washington, DC, June–July 2004), an NGO and law firm focused on freedom of speech and whistleblower protection.</p>
ACADEMIC LEADERSHIP	<p>Work package leader in the Horizon 2020 projects <i>openENTRANCE</i> (openentrance.eu) and <i>European Climate & Energy Modelling Forum</i> (ecemf.eu);</p> <p>Topical editor for “Integrated assessment modeling” of the EGU journal <i>Geoscientific Model Development</i> (gmd.copernicus.org);</p> <p>Author of the Summary for Policymakers and Chapters 2, 4 & 5 of the Special Report on Global Warming of 1.5 °C (SR15) by the <i>Intergovernmental Panel on Climate Change (IPCC)</i>, published in October 2018;</p> <p>Project lead for the scenario ensemble compilation underpinning the quantitative assessment in the IPCC SR15, published as the <i>IAMC 1.5 °C Scenario Explorer hosted by IIASA</i> (data.ece.iiasa.ac.at/iamc-1.5c-explorer/);</p> <p>Presentation at the UN <i>Climate Change Conference COP24</i>, Katowice, Poland, in December 2018 as part of the PCCB Capacity-Building Hub;</p> <p>Co-Organizer of the <i>14th Workshop on Mathematical Economics in the Energy Sector</i> by the Austrian Operations Research Society (OeGOR), Vienna, June 2019;</p> <p>Member of the Advisory Board of the reFUEL project funded by an <i>ERC Starting Grant</i> (Prof. Johannes Schmidt) at the University of Applied Life Sciences, Vienna (BOKU);</p> <p>Officer for Communication & Outreach of the INFORMS Section “Energy, Natural Resources, and the Environment” (ENRE) from 2016 until 2018;</p> <p>Conference Vice-Chair of the <i>10th Trans-Atlantic Infraday Conference</i>, held at the Federal Energy Regulatory Commission (FERC), Washington, D.C., November 2016.</p>

HONORS
& AWARDS

Winner of the *2016 Young Researcher Prize* (with Sauleh Siddiqui), awarded by the INFORMS Section “Energy, Natural Resources, and the Environment” (ENRE);

Conference Presentation Award for Young Researchers (*Vortragsprämie*) for a talk given at the INFORMS Annual Conference 2013 in Minneapolis, endowed by the [German Bundesbank](#) and awarded by the [Verein für Socialpolitik](#), in December 2013;

Funding grant for a 10-week research assistant position for a BSc student from the United States within the *RISE program* (Research Internships in Science and Engineering) by the [German Academic Exchange Service \(DAAD\)](#), in June–August 2013;

Research grant and dissertation sponsorship awarded by [Energie-Control Austria](#) within the special series “10 years of e-control”, in May 2011;

“Wirtschaft-Ethik-Religion” award (*business-ethics-religion*) by the Federation of Austrian Industry for a study on corporate social responsibility (CSR) for multinational enterprises written as part of the Matura examinations, awarded in October 2003.

TEACHING
EXPERIENCE

Lecturer at [TU Wien](#) since 2019 for the course *Open Source Energy System Modelling* ([link to TISS](#));

Lecturer/Adjunct Faculty at [Webster Vienna Private University](#), for the course *International Affairs: Power & Technology*, in the fall semester 2017;

Lecturer at the Oppdal PhD Winter School on *Stochastic programming in energy*, organized by [NTNU Trondheim](#), [Department of Industrial Economics & Technology Management \(IØT\)](#), in March 2016;

Lecturer at the InfraTrain Autumn School on *One- and two-level energy modelling*, organized by the [Workgroup on Infrastructure Policy](#), [TU Berlin](#), in October 2014; Teaching Assistant at the InfraTrain from 2009–2012, for various courses on stochastic dynamic optimization and equilibrium modelling;

Lecturer at the Bad Hofgastein PhD Winter School on *Stochastic programming with applications in energy, finance and insurance*, organized by [University of Vienna](#), [Department of Statistics and Operations Research](#), in April 2014;

Lecturer at the Oppdal PhD Winter School on *Managing uncertainty in energy infrastructure investments*, organized by [NTNU Trondheim](#), [IØT](#), in March 2011.

STUDENT
SUPERVISION

Ryan Hanna, PhD candidate at the University of California, San Diego (UCSD), supervision & mentoring in the *2017 Young Scientist Summer Program (YSSP)* at IIASA;

Clara Orthofer, PhD candidate at the Technical University Munich (TUM), supervision & mentoring in the 2016 YSSP at IIASA; winner of IIASA’s *2016 Peccei Award*;

Alex Koberle, PhD candidate at the Energy Planning Program, COPPE/ UFRJ, Brazil, co-supervision & mentoring in the 2016 YSSP at IIASA;

Lissy Langer, co-supervision of MSc thesis submitted at TU Berlin in September 2015, written at Johns Hopkins University with financial support by the PROMOS program; currently a PhD student at TU Berlin;

Simon Donges, co-supervision of MSc thesis submitted at TU Berlin in June 2015;

Benjamin Boldt, co-supervision of MSc thesis submitted at TU Berlin in July 2014;

Lukas Wuttke, co-supervision of BSc thesis submitted at TU Berlin in October 2013;

Shayna Rose, at the time undergrad student at Johns Hopkins University, supervision during an internship at DIW Berlin funded by the DAAD RISE program, summer 2013; currently enrolled as a MSc student at Georgetown University.

REVIEWER	Nature Energy, Nature Climate Change, Energy Economics, Energy Policy, The Energy Journal, European Journal of Operational Research (EJOR), Climatic Change, Networks & Spatial Economics (NETS), Mathematical Methods of Operations Research (MMOR), IEEE Transactions on Power Systems (IEEE TPS), Technological Forecasting & Social Change, Optimization & Engineering
HONORARY ACTIVITIES	<p>Member of IAESTE, an international traineeship exchange program for students of engineering and natural sciences to gain practical experience abroad;</p> <ul style="list-style-type: none"> – <i>National Secretary</i> of IAESTE Austria in 2007, head of the exchange program and representative of the National Committee on the international level; – <i>Board Member</i> of IAESTE A.s.b.l. (IAESTE International) in 2010; <p>Participation in the Model European Parliament, a forum for young students interested in politics and the European Union; President of the General Assembly and head of the organising committee in several national and international sessions;</p> <p>Facilitator and workgroup leader at the <i>Waves of Democracy</i> in Brandbjerg, Denmark, in September 2006, an EU-funded project bringing together students to discuss participatory democracy & citizens’ rights.</p>
LANGUAGES	German (native); English (CAE, “A”-grade); French (Berlitz, “1”-grade).
COMPUTER LITERACY	Office (MS Office); Math & programming (GAMS, Python, R, \LaTeX); Graphics (Adobe CS); Collaborative tools (Git, SVN); Web & Database (Java, ORACLE, SQL, HTML 5).
MISCELLANEOUS	Date of birth: January 3, 1985; Place of birth: Vienna, Austria; Military service: October 2003–May 2004, 3425 Langenlebern, Austria; office duties.

Publications – Dr. Daniel Huppmann

INTERNATIONAL REPORTS

Contributing Author to Chapter 3 of the [Emissions Gap Report 2020](#), published by *UN Environment* in December 2020;

Contributing Author to the Summary for Policymakers as well as Chapters 2 and 5 of the [Special Report on Global Warming of 1.5 °C \(SR15\)](#) by the *Intergovernmental Panel on Climate Change (IPCC)*, published in October 2018.
