

Questions for Discussion

- Tools and Data:
 - What can we use?
 - What tools and data are missing?
- Control Strategies:
 - What sets of measures should we explore?
 - Where can we make a difference?
- Expert Rosters & Work Plan
 - Who is willing to do what by when?
 - Who do we need to recruit?

TFIAM-TF HTAP

Discussion of Path Forward

Charge from Ad Hoc Policy Review Group

- Cost Effectiveness of Controls vs. Inaction
 - Within UNECE? Outside the UNECE?
- SLCP Mitigation Opportunities (BC, CH₄)
- Integrate Nitrogen Management (NH₃)
- International Shipping Impacts
- Impact of Climate Change on Ozone, Nitrogen, POPs, Metals
- With whom should the LRTAP Convention engage?

Questions for Discussion

- Tools and Data:
 - What can we use to address these issues?
 - What tools and data are missing?
- Control Strategies:
 - What sets of measures should we explore?
 - Where can we make a difference?
- Expert Rosters & Work Plan
 - Who is willing to do what by when?
 - Who do we need to recruit?

Tools and Data

- GAINS
 - What scope is envisioned?
 - What inputs are needed?
- Screening Model Development
 - Using multimodel ensembles
 - Integrating global and regional/national scale models
- Mitigation Technology and Costs
- Impact Methodologies (Health, Ecosystem, Climate)
- ...

Control Strategies

- What sets of measures should we explore?
 - Agriculture, Shipping
 - BC, Methane
 - ...?
- Where can we make a difference?
 - What sectors have the most control potential?
 - What sectors are being addressed by others?
 - What sectors are of interest to governments?

Expert Rosters and Workplan

- Who is willing to do what by when?
 - What role can national IAM experts play?
- How do we build connections?
 - Other LRTAP Bodies (TFTEI, TFEIP, TFMM, TFRN, WGE)
 - Arctic, CCAC, Asian Initiatives, IMO...
 - Stockholm Conv, Minamata Conv
- Who do we need to recruit?
