

Background report to the 2012 Gothenburg Protocol

Johan Sliggers

Objectives

- Results Protocol
- Trends
- Challenges
- Source of information
 - Data and methodologies
 - Ratifications and country policies
 - Future evaluations

Emissions/scenarios

- 1990, 2000, 2005, 2020, 2050/Long Term
- SO₂, NO_x, NH₃, VOC and PM_{2.5}
- BC, CO₂, CH₄ and N₂O
- EMEP geogr. area
 - Countries
 - EU27
 - Non-EU

Content (1)

- CHAPTER 2
- Long Term/2050
 - Sustainable
 - Climate Change + Air Pollution
- Emission/effects deficit

Content (2)

- CHAPTER 3
- Emissions and costs
- Assumptions
- Key measures

Content (3)

- CHAPTER 4
- Health and Environmental effects
- Guidance doc on H&E Improvements
- Air Quality (cities)
- Other effects/ICPs

Content (4)

- CHAPTER 5
- Health and non-health benefits
- Benefits valuation
- B/C ratio, BCA
