

Danish emission ceilings for 2020

19. may 2011

Danish EPA

Christian Lange Fogh, PhD.

National projections

As part of the NEC-PI process Denmark carried out an analysis of the IASA calculation in 2007-08

Report: NEC-2020 Emission reduction scenarios, NERI Technical report no. 746.

Main conclusion: while the overall totals were in good agreement there were significant differences in the contributions from different sectors

As new study has been launched and will (hopefully) be finished by September 2011

National projections

		SO ₂	NO _x	VOC	NH ₃	PM _{2,5}
NERI, 2006/2009		21	115	74	55	16
NEC-PI IASA, national	BL	21	126	71	53	15
NEC-PI IASA, PRIMES	BL	19	104	62	53	14
2011 IASA, national	BL	18	101	75	52	20
2011 IASA, PRIMES	BL	11	85	74	52	19
2011 IASA, national	MFTR	14	82	47	46	9
2011 IASA, PRIMES	MFTR	10	74	45	46	8

Any questions 😊
