

Curriculum Vitae

Name Yoshihide Wada
Date of Birth August 25th 1980
Nationality Japan
Address NASA Goddard Institute for Space Studies
Center for Climate Systems Research
The Earth Institute
Columbia University
Room #246
2880 Broadway
New York, NY 10025 USA
Tel: +1 212 678 5667
Email: y.wada@uu.nl
yoshihide.wada@nasa.gov

Research Experiences Hydrology and Climate, Global Hydrological Modeling, Global Water Use Modeling, Global Water Scarcity, Human Impacts on Global Water Resources, Groundwater Resources Sustainability, Hydrological Drought, Irrigation, Crop Growth Modeling, Land Use Modeling

Research Descriptions Dr. Yoshihide Wada is a research scientist at the NASA Goddard Institute for Space Studies and the Center for Climate Systems Research, Columbia University. His completed PhD projects include estimating global water use and water availability by using the global hydrological and water resources model PCR-GLOBWB. His work also includes estimating and projecting global water scarcity, and assessing the sustainability of global groundwater resources. His current research projects include a global assessment of the sustainability of future food production under socio-economic and climate change, and water scarcity.

Education/Profession

- 2017 – present **Deputy Water Program Director** The International Institute for Applied Systems Analysis (IIASA) in Laxenburg, Austria
- 2016 – present **Senior Research Scientist** The International Institute for Applied Systems Analysis (IIASA) in Laxenburg, Austria
- 2015 – present **Research Scientist** National Aeronautics and Space Administration (NASA) Goddard Institute for Space Studies/ Center for Climate Systems Research/The Earth Institute, Columbia University
Research Thema: Global water-food-energy nexus under changing environments
- 2015 – 2018 **Japan Society for the Promotion of Science (JSPS) Oversea Research Fellow***
*Top 10%
Research Thema (PI): Global assessment of the sustainability of future food production under socio-economic, land use, and climate change, and water scarcity
- 2015 **Invited Research Scientist** The International Institute for Applied Systems Analysis (IIASA) in Laxenburg, Austria
- 2013 – present **Research Scientist** Department of Physical Geography, Utrecht University, The Netherlands
Research Thema: 1) Dynamic coupling of the global hydrological model PCR-GLOBWB with the global crop model PEGASUS, 2) Future water and food security under increasing socio-economic pressure and changing climate
- 2013 **Visiting Scientist** Department of Civil Engineering, McGill University, Canada
[Hosts: Dr. Tom Gleeson, Dr. Navin Ramankutty]
- 2009 – 2013 **PhD (*Cum Laude**) in Hydrology** *Top 2-3%

	Department of Physical Geography, Utrecht University, The Netherlands (Research Focus Earth and Sustainability; Project FM0906: <i>Global Assessment of Water Resources</i>) Research Thema: Modeling past and projecting future global water stress – including population growth, economic development and climate change [Supervisors: Prof. dr. ir. Marc F. P. Bierkens, Dr. Ludovicus P. H. van Beek]
2008	Visiting Scientist Hydrology Group, University of Bern, Switzerland [Supervisors: Prof. dr. Rolf Weingartner, Dr. Daniel Vivioli]
2006 – 2008	MSc in Hydrology and System Earth Modeling (Prestige Master) (GPA 3.9/4.0) Department of Earth Sciences, Utrecht University, The Netherlands [Supervisors: Prof. dr. ir. Marc F. P. Bierkens, Dr. Ludovicus P. H. van Beek, Dr. Hans H. Dürr] [Co-supervisors: Prof. dr. Rolf Weingartner, Dr. Daniel Vivioli]
2005	Certificate of Global Sustainability Programme Alliance for Global Sustainability (AGS), Braunwald, Switzerland (AGS is an organization of ETH Zurich, The University of Tokyo, Massachusetts Institute of Technology, and Chalmers University of Technology)
2004 – 2006	Master of International and Environmental Studies (GPA 4.0/4.0) Institute of Environmental Studies, Graduate School of Frontier Sciences, The University of Tokyo, Japan [Supervisor: Dr. Jin Sato]
2002	Visiting Student (Political Science and Asian Studies) Department of Political Sciences, Faculty of Arts, Humanities and Social Sciences, The University of Western Australia, Australia [Supervisors: Prof. dr. Dennis Rumley, Dr. Samina Yasmeen]
2000	Visiting Student (Asian Studies) Murdoch University, Australia
1999 – 2004	BA in Linguistics, Cultural Studies, and International Relations (with distinction) Faculty of English, Department of Foreign Language, Himeji Dokkyo University, Japan [Supervisors: Prof. dr. Kiyotaka Doi, Prof. dr. Kiyoshi Hatsuoka]

Professional Experiences

2014	MSc thesis examination committee for Rutger Hofste (Delft University of Technology, The Netherlands), and for Hafsa Ahmed Munia (Aalto University, Finland)
2013	MSc thesis examination committee for Laurent Esnault (McGill University, Canada)
2009 – present	Supervisor of ten MSc students and two PhD candidates at Utrecht University, at McGill University, and at Aalto University
2009 – present	Lecturer and teaching assistant, Utrecht University MSc courses: Land Surface Hydrology (GEO4-4404), Land degradation and Catchment Modeling (GEO4-4406), Unsaturated Zone Hydrology (GEO4-4417)
2008 – 2009	Internship, Environment Planning and Water Preservation Agency, Ehime, Japan
2004 – 2006	Research assistant, Institute of Environmental Studies, The University of Tokyo

Honors and Personal Grants

2015	2015 Editors' Citations for Excellence in Refereeing, Cited by Alberto Montanari (Editor in Chief) for Water Resources Research
2015-2018	Japan Society for the Promotion of Science (JSPS) Postdoctoral Fellowships for Research Abroad (3-year full funding)
2013	PhD degree with Cum Laude, Utrecht University, The Netherlands
2012	American Geophysical Union Horton (Hydrology) Research Grant (US\$ 10,000)
2006 – 2008	National Research Scholarship Programme by the Ministry of Education of Japan (JPY 10,000,000~US\$ 100,000)
2005 – 2006	Nakamura Sekizen Foundation Scholarship (JPY 2,000,000~US\$ 20,000)
2005	Travel grant for the Global Sustainability Programme, Switzerland (US\$ 2000)
2004 – 2005	National First-Grade Scholarship, Japan (JPY 1,500,000~US\$ 15,000)
2001 – 2002	HUMAP Honorary Scholarship, Japan-Australia (JPY 1,200,000~US\$ 12,000)
2000 – 2001	Highest Grade Award 2001, Himeji Dokkyo University, Japan

International Projects (Participated)

2015 – 2018	LandMIP Land Modelling Intercomparison Project, a community-driven modeling effort with the goal of providing global impact assessments over the land surface
2015 – 2016	World Resources Institute (WRI) Aqueduct Water Risk Atlas Aqueduct's global water risk mapping tool helps companies, investors, governments, and other users understand where and how water risks and opportunities are emerging worldwide. The Atlas uses a robust, peer reviewed methodology and the best-available data to create high-resolution, customizable global maps of water risk.
2014 – 2018	EartH2Observe Global Earth Observation for Integrated Water Resource Assessment, a collaborative project funded under the DG Research European Union FP7 programme and brings together the findings from European FP projects DEWFORA, GLOWASIS, WATCH, GEOWOW and others. The project aims to contribute to the assessment of global water resources through the use of new Earth Observation datasets and techniques. For this purpose, the project integrates available earth observations, in-situ datasets and models, to construct a consistent global water resources reanalysis dataset of sufficient length (>30 years). The resulting datasets are available through an open Water Cycle Integrator data portal: the European contribution to the GEOSS/WCI approach. The datasets are downscaled for application in case-studies at regional and local levels, and optimized based on identified European and local needs supporting water management and decision making.
2013 – 2016	WFaS Water Futures and Solutions: World Water Scenarios Initiative (coordinated by the IIASA), Multi-layered, cross-sector, stakeholder informed, scenario-based assessment of the state of water resources and water demand using state-of-the-art socio-economic and hydrological models, based on the Shared Socioeconomic Pathways (SSPs) and Representative Concentration Pathways (RCPs) in the context of the Intergovernmental Panel on Climate Change (IPCC) 5th Assessment Report (AR5).
2013 – 2016	ISI-MIP2 Inter-Sectoral Impact Model Intercomparison Project (coordinated by PIK), a community-driven modeling effort with the goal of providing cross-sectoral global impact assessments
2010 – 2015	The Fifth Assessment Report (AR5) of the Intergovernmental Panel on Climate Change (IPCC) Contributing Author Working Group I, Chapter 13: Sea Level Change
2012 – 2014	Water2Invest.com Global facility for calculating investments needed to bridge the climate-induced water gap. Water2Invest.com develops a web-based tool that can be used to perform analyses of investments needed to bridge the water gap for selected regions and countries.
2012 – 2013	ISI-MIP Inter-Sectoral Impact Model Intercomparison Project (coordinated by PIK), a community-driven modeling effort with the goal of providing cross-sectoral global impact assessments
2011 – 2013	European GLOWASIS (Global Water Scarcity Information Service) project (coordinated by Deltares), GLOWASIS is part of the European Earth Observation Programme (GMES) which provides and combines Earth observation data from space, air, water and land through a sustainable information infrastructure.

Research Funding (allocated to my research part)

2015 – 2016	WRI Aqueduct Water Risk Atlas (US\$ 20,000)
2014 – 2018	EartH2Observe (US\$ 10,000)
2013 – 2016	ISI-MIP2 (US\$ 5,000)
2013 – 2016	WFaS (US\$ 45,000)
2012 – 2013	ISI-MIP (US\$ 30,000)
2011 – 2013	European GLOWASIS (US\$ 10,000)
2009 – 2013	Research Focus Earth and Sustainability of Utrecht University : Modelling past and future global water stress – including population growth, economic development and climate change (US\$ 300,000)

Professional Societies

American Geophysical Union (AGU)
European Geosciences Union (EGU)
International Association of Hydrological Sciences (IAHS)
Japanese Association of Groundwater Hydrology (JAGH)

Professional Activities

- 2016 **Co-convener** for the session “The Water-Energy-Food Nexus Approach in Support of Water Security” at the Asia Oceania Geosciences Society (AOGS) 13th Annual Meeting in Beijing, China, July 31-August 5 2016.
- 2015 **Primary convener** for the session “Global and regional water-food-energy security under changing environments” at the American Geophysical Union (AGU) Fall Meeting in San Francisco, US, December 14-18 2015.
- 2015 **Co-convener** for the session “Recent advancement in terrestrial water storage change estimation and its contribution to global sea level variation” at the American Geophysical Union (AGU) Fall Meeting in San Francisco, US, December 14-18 2015.
- 2015 **Co-convener** for the session “Drought in the Anthropocene” at the American Geophysical Union (AGU) Fall Meeting in San Francisco, US, December 14-18 2015.
- 2014 **Primary convener** for the session “Global and regional water-energy-food security under changing environments” at the American Geophysical Union (AGU) Fall Meeting in San Francisco, US, December 15-19 2014.
- 2014 **Co-convener** for the session “The Effects of Anthropogenic Land Use and Land Cover Change on Local to Global Climate: Forcings and Feedbacks From the Past to the Future” at the American Geophysical Union (AGU) Fall Meeting in San Francisco, US, December 15-19 2014.
